Objective

Objective Computer Engineering undergraduate with hands-on experience in web development using HTML, CSS, PHP, Oracle and MySQL, along with strong algorithmic problem-solving skills. Seeking a software development internship to apply technical knowledge, gain industry exposure, and contribute to real-world projects while learning from experienced professionals.

Skills

- **Languages:** C, C++, Java (beginner), Python (beginner), JavaScript
- **Database and Languages:** Experience in Oracle SQL
- **Version Control Tools and IDE:** Git, GitHub, VS Code
- **Soft Skills:** Communication, Time management, Teamwork, Planning

Projects

Job Portal System: A full-featured web-based job portal application developed using Django that streamlines the recruitment process by connecting job seekers and recruiters through a centralized platform. The system features dual-role authentication, job posting and application management, real-time status tracking, and resume upload functionality. The project focuses on a clean user interface, responsive design, and an intuitive workflow for both job seekers and recruiters. *Tech: Django, Python, SQLite, HTML, CSS*

Travel Wander: A responsive travel website showcasing destinations and travel experiences, featuring multi-page layouts with categorized tours and locations. The project focuses on clean UI, responsive design, and intuitive navigation for an enhanced user experience. *Tech: HTML, CSS, MySQL*

Bus Booking System: A web-based application developed using PHP that allows users to search buses, view schedules, and book tickets online. The project focuses on a clean user interface, responsive design, and smooth booking workflow. *Tech: HTML, CSS, PHP, MySQL*

Achievements

Project Lead & Finalist, Odoo x CGC Mohali National Hackathon 2025

- Contributed as a team member in a 4-person group, securing **Rank 43** out of 200+ national teams during an 8-hour virtual sprint.
- **Practical Technical Implementation:** Applied the **Odoo framework** to address real-world business requirements through hands-on development.
- **Time-Critical Execution:** Successfully delivered a working, competitive solution within the constraints of a 48-hour hackathon.

Key Skills Developed:

- **Adaptability & Rapid Learning:** Quickly learned and applied the Odoo framework under time constraints to contribute to a functional module.
- **Team-Based Problem Solving:** Collaborated with a distributed team in a virtual environment to design, develop, and integrate system components.
- **Consistency & Execution Support:** Contributed steadily toward delivering a ranked prototype in a high-pressure competitive setting.
